## Profile

Graphic artist, visualizer, teacher of painting, graphics, 3D modeling and IT. Regular participant and organizer of Moscow art exhibitions, winner of Social Advertising Festivals 2006–2007. Participant of more than 20 exhibitions at various galleries in Moscow

The main theme of the work is a fantasy city landscape. Some of the works are made using a unique multi-layer technique, which allows you to add volume and aerial perspective to landscapes and interiors. The built-in backlight allows to see how the space in the pictures changes after dark.

Basically, the artist's works consist of series of 2 to 12 or more canvases united by a single theme and technique. The most popular was the collection of "Harry Potter's World" series, which is exhibited annually for fans of the novels of J. K. Rowling
